Model _____ Serial No. _____

Figures and illustrations in this User Manual are provided for reference only and may differ from actual product appearance. Product design and specifications may be changed without notice.

Instruction

This TV is provided with interactive functionality through a set-back box (SBB/STB) connected to the TV, and with other TVs in a computer-controlled system for hotels and other hospitality businesses.

Interactive: When the TV is powered-up initially, it sends a command to identify the SBB/STB; if identified, the TV switches to ONLINE mode and full control is through the SBB/STB.

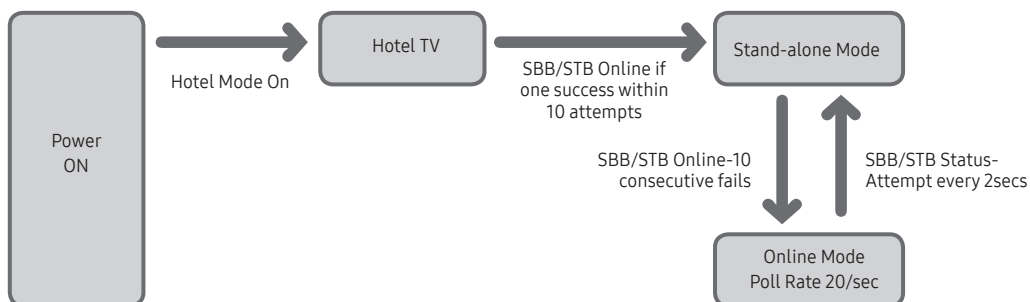

If the TV is in ONLINE mode, it stops receiving IR(Samsung remote) commands and acts according to interface protocol.

Stand-Alone: If SBB/STB is not identified, the TV should be switched to STAND-ALONE mode with restricted operation.

Operational Modes

When this TV (in Hotel mode) is operated with a SBB/STB, it is in one of two states :

- ONLINE or STAND-ALONE. In the STAND-ALONE state, the TV will act as a Hotel TV, but without active communication. This is to prevent guests from trying to cheat the system by disconnecting the SBB/STB.

To set the details for Stand-alone or interactive mode, refer to pages 23-32 (Setting the hotel option data : Stand-alone mode and Interactive mode)

- Some operations may be restricted to prevent guests from "cheating" the TV system.
- No main menu(Interactive mode) or Channel Menu, Plug & Play in Main Menu (Stand-Alone mode)
- Limited Volume and Panel key lock or unlock

Still image warning

Avoid displaying still images (like jpeg picture files) or still image element (like TV Program logo, panorama or 4:3 image format, stock or news bar at screen bottom etc.) on the screen. Constant displaying of still picture can cause uneven wear of screen phosphor, which will affect image quality. To reduce risk of this effect, please follow below recommendations:

- Avoid displaying the same TV channel for long periods.
- Always try do display any image on full screen, use TV set picture format menu for best possible match.
- Reduce brightness and contrast values to minimum required to achieve desired picture quality, exceeded values may speed up the burnout process.
- Frequently use all TV features designed to reduce image retention and screen burnout. Refer to the relevant user manual section for details.

Securing the Installation Space

Keep required distances between the product and other objects (e.g. walls) to ensure proper ventilation.

Failing to do so may result in fire or a problem with the product due to an increase in the internal temperature.

- When using a stand or wall-mount, use parts provided by Samsung Electronics only.
 - Using parts provided by another manufacturer may result in a problem with the product or injuries due to the product falling.
- The appearance may differ, depending on the product.

Accessories

- ✎ Please make sure the following items are included with your LED TV. If any items are missing, contact your dealer.
- ✎ The items' colour and shapes may vary depending on the model.

- Remote Control & Batteries (AAA x 2)
- Quick Setup Guide
- Cable Holder
- Hotel Mount Kit
- Power Cord / Data Cable
- Warranty Card / Regulatory Guide (Not available in some locations)

- ✎ The stand and stand screw may not be included, depending on the model.
- ✎ The Data Cable may not be included, depending on the SI Vendor.

Arrange the cables using the Cable Holder

Assembling the swivel

▲ WARNING: If you configure the TV to swivel, you must attach it securely to the floor, a desk, a dresser top, etc. as described in the installation instructions.

The LED TVs have swivel stands. You can configure these stands so that the TVs swivel 20 degrees left and right, 60 degrees left and right, or 90 degrees left and right using the BRACKET HOLDER SWIVEL.

* The product ships with its stand's swivel angle set to 20°.

* 20° Swivel

To configure the TV so that it swivels 20° left and right, insert the prong on the bottom of the stand through the curved hole in the Bracket Holder Swivel marked 20°. Then, fix the Bracket Holder Swivel to the stand using the three supplied screws as shown below.

60° Swivel

To configure the TV so that it swivels 60° left and right, insert the prong on the bottom of the stand through the curved hole in the Bracket Holder Swivel marked 60°. Then, fix the Bracket Holder Swivel to the stand using the three supplied screws as shown below.

90° Swivel

To configure the TV so that it swivels 90° left and right, remove the Bracket Holder Swivel, and then screw the three supplied screws into the stand as shown below.

Installing the LED TV Stand

The 32" and larger LED TVs have swivel stands. You can set these stands so that the TVs swivel 20 degrees left and right or 90 degrees left and right.

Stand Components

When installing the stand, use the provided components and parts.

50"~55"

NOTE

- Make sure to distinguish between the front and back of each component when assembling them.
- Make sure that at least two persons lift and move the TV.

Hotel Mount Kit

A 	B 	C 	D 
Short Bolt (2EA)	Long Bolt (2EA)	Washer (2EA)	Nut (2EA)

WARNING: To prevent injury, you must attach this TV securely to the floor, a table, a dresser top, etc. with the Hotel Mount Kit as described in these instructions.

Viewing the Connection Panel

- ⚠ Whenever you connect an external device to your TV, make sure that power on the unit is turned off.
- ⚠ When connecting an external device, match the colour of the connection terminal to the cable.

1 USB (5V 0.5A), USB (HDD 1.0A)/CLONING

- Connector for software upgrades and Media Play, etc.
- Service connection.

2 DIGITAL AUDIO OUT (OPTICAL)

Connects to a Digital Audio component.

3 HDMI IN 1 / HDMI IN 2 / HDMI IN 3 (ARC)

Connects to the HDMI jack of a device with an HDMI output.

- ⚠ No sound connection is needed for an HDMI-HDMI connection. HDMI connections carry both audio and video.

4 LAN

Connect to a wired LAN using CAT 7 cable.

5 LAN OUT

Wired LAN connection port used to connect an external device such as a laptop to connect to the Internet. (However, the TV must be connected to the Internet via wired LAN.)

6 RJP

This port is an RJP (Remote Jack Pack) communication port that enables connecting different devices to additional modules to improve device use and convenience.

7 HEADPHONE JACK

Headphones may be connected to the headphone jack on your TV. While the headphones are connected, the sound from the built-in speakers is disabled.

8 ANT IN

- To view television channels correctly, the TV must receive a signal from one of the following sources:
- An outdoor antenna / A cable television system

9 DATA

- Used to support data communication between the TV and the SBB.
- Connects using RJ-12 TV type plugs.

10 HP-ID

Connect the cable to HP-ID and Headphone Jack simultaneously and connect it to separated Headphone Box. See page 19. When connecting Headphone to Headphone Box, it works same as Headphone function.

11 COMPONENT / AV IN

- Use to connect to Component video / audio devices such as DVD players and AV (Composite) devices such as VCRs.
- Connect audio cables to "R-AUDIO-L" on your TV and the other ends to corresponding audio out jacks on A/V or Component devices.
- The COMPONENT IN jack is also used as the VIDEO 1 jack.
- Connect component video cables (not supplied) to the component jacks ("PR", "PB", "Y") on the rear of your TV and the other ends to corresponding component video out jacks on a DVD player. Match the colors on the jacks and cables.
- If you want to connect both a Set-Top Box and a DVD player, you should connect the Set-Top Box to the DVD and connect the DVD to the component jacks ("PR", "PB", "Y") on your TV.
- The PR, PB and Y jacks on your component devices (DVD) are sometimes labeled Y, B-Y and R-Y or Y, Cb and Cr.
- For AV devices, connect RCA audio cables (not supplied) to "R - AUDIO - L" on the rear of the TV set and the other ends to corresponding audio out jacks on an external device.
- When you are connecting a composite (AV) device to AV IN [Y/Video], connect the video cable (Yellow) to the AV IN [Y/VIDEO] jack (Green/Yellow).

12 VARIABLE AUDIO OUT

Used for the audio output to the Bathroom speaker. Connect the Bathroom Wall Box and the Variable port (RCA).

13 VOL-CTRL

Used to control the volume of the Bathroom speaker. Connect the Bathroom Wall Box and the VOLCTRL port.

Supported Resolutions for each of UHD Input Signals

- Resolution: 3840 x 2160p, 4096 x 2160p

 An HDMI connection with HDMI UHD Color set to Off supports up to UHD 50P/60P 4:2:0 input signals, while an HDMI connection with HDMI UHD Color set to On supports up to UHD 50P/60P 4:4:4 and 4:2:2 input signals.

If HDMI UHD Color is set to Off

Frame rate (fps)	RGB	YCbCr 4:4:4	YCbCr 4:2:2	YCbCr 4:2:0
24 / 25 / 30	0	0	0	-
50 / 60	-	-	-	0

If HDMI UHD Color is set to On

Frame rate (fps)	RGB	YCbCr 4:4:4	YCbCr 4:2:2	YCbCr 4:2:0
24 / 25 / 30	0	0	0	-
50 / 60	0	0	0	0

Display Resolution

You can also select one of the standard resolutions listed in the Resolution column. The TV will automatically adjust to the resolution you choose.

After connecting a computer to the TV, set the screen resolution for the TV on the computer. The optimal resolution is 3840 x 2160 @ 60 Hz. If it is set to any other than in the table below, the TV may display nothing. Set the resolution properly, referring to the user guide of the computer or its graphic card.

The resolutions in the table are recommended.

 Optimal resolution is 3840 x 2160 @ 60 Hz.

Mode	Resolution	Display format	Horizontal frequency (KHz)	Vertical frequency (Hz)	Clock frequency (MHz)	Polarity (horizontal / vertical)
IBM	720 x 400	70 Hz	31.469	70.087	28.322	-/+
MAC	640 x 480	67 Hz	35.000	66.667	30.240	-/-

- 🔗 The interlace mode is not supported.
- 🔗 The set might operate abnormally if a non-standard video format is selected.
- 🔗 Separate and Composite modes are supported. SOG is not supported.

TV Controller

TV Controller is a multi directional button that helps navigate without using the remote control.

- Some functions which require a PIN code may not be available.
- The product colour and shape may vary, depending on the model.
- Exits the menu when pressing the controller for more than 1 second.

Standby mode

Do not leave your product in standby mode for long periods of time (when you are away on a holiday, for example). A small amount of electric power is still consumed even when the power button is turned off.

Viewing the Remote Control

- This remote control has Braille points on the Power, Channel, and Volume buttons and can be used by visually impaired persons.

Installing batteries (Battery size: AAA)

NOTE

- Use the remote control within 7m of the TV.
- Bright light may affect the performance of the remote control. Avoid using nearby special fluorescent light or neon signs.
- The colour and shape may vary depending on the model.
- Remote control button '3D' are not supported. When pressing these buttons, the TV unit does not respond.

Connecting the TV with SBB

✎ The rear panel may differ depending on the model.

1. Connect the DATA jack of the TV to the [ETH MODEM] jack of the STB (SBB) with the Data cable.

✎ Use data communication.

List of Vendors and Compatible Data Cables Supplied with the TV

• Confirm that you are using the correct data cable for your vendor. Refer to the code label on the data cables.

✎ Operation Specification of Data Cable(RJ12) : RS232

Connecting the Bathroom Speakers

You can connect the Bathroom Speakers using the following method.

Connecting through the Variable Output (available without an external amplifier)

The rear panel may differ depending on the model.

1. Connect the VARIABLE AUDIO OUT port of the TV to the Bathroom Wall Speakers of the hotel.

2. Connect the VOL-CTRL jack of the TV to the Volume Control Box Switch port on the Bathroom Wall of the hotel.

The maximum speaker output is 4W, 8Ω.

The VARIABLE AUDIO OUT port supports MONO sound out only.

- Installing the Volume Control

- If you configure the Volume Control Box as shown in the figure, you can control the volume of the bathroom speakers.

- The jack that connects the Volume Control Box to the TV is a 3.5mm normal Phone jack.

- Volume Control Box switch is a Tact switch.

- ✎ Setting the SubAmp Mode

- 0: Turns the SubAmp function off (PWM off).

- 1: Determines the Sub volume according to the main volume control. The sub volume is determined according to the Power On Volume, the Min Volume, and the Max Volume values of Hotel Mode.

- 2: Determines the volume according to the bathroom control panel setting.

- Variable Output Port Specifications

- **Speaker Wire:** Use speaker cable no more than 82 feet (25m) in length.

Audio Loop In

An additional Headphone Box can be installed on a bed or business desk for added convenience. The installation procedures are given below.

- Detailed Drawing of the Headphone Box.

The rear panel may differ depending on the model.

Connecting the MediaHub HD

Output to any external source connected to MediaHub HD on the hotel desk.

ⓘ The rear panel may differ depending on the model.

1. Connect the RJP port of the TV and the RS/232 port of the MediaHub HD.
2. Connect the HDMI IN 1, 2 or 3 port of the TV and the HDMI port of the MediaHub HD.

• MediaHub HD

- The MediaHub HD is a hardware module that has different Audio Video inputs (A/V, Audio, PC, HDMI and USB) and corresponding outputs. The corresponding output sources connect from MediaHub to the TV. MediaHub communicates with the TV via RS232. Hot Plug & Play is a function that allows hotel guests to connect an external source to the MediaHub. MediaHub communicates with the TV by sending messages regarding Active/Inactive sources. The TV switches to the Active external source.
 - You have to connect the HDMI of the MediaHub to the HDMI IN 3 port of the TV.
 - When the TV is on, connect the TV and the RJP within 10 seconds.
- Special features
 - PIP
 - Auto Detection

Connecting the RJP (Remote Jack Pack)

Output to any external source connected to RJP on the hotel desk.

📎 The rear panel may differ depending on the model.

1. Connect the AV IN [VIDEO]/[L-AUDIO-R] port of the TV to the AUDIO port of the RJP.
2. Connect the AV IN [VIDEO] port of the TV to the VIDEO port of the RJP.
3. Connect the HDMI IN 1, 2 or 3 port of the TV and the HDMI port of the RJP.
4. Connect the RJP port of the TV and the RS/232 port of the RJP.

📎 The RJP (Remote Jack Pack) compatible with this Samsung TV is TeleAdapt TA-7610, TA-7650 (HD) and TA-7660 (HD Plus).

- **RJP (Remote Jack Pack):** RJP stands for Remote Jack Pack. The RJP is a hardware module that has different Audio Video inputs (A/V, Audio, PC and HDMI) and corresponding outputs. The corresponding output sources are connected from RJP to TV. The RJP communicates with the TV via RS232. Hot Plug & Play is a function that allows hotel guests to connect an external source to the RJP. The RJP communicates with the TV by sending messages regarding Active/Inactive sources. The TV will switch to the Active external source according to the priority set by the User.

📎 You can select HDMI IN 1, 2 or 3 and AV IN for connecting RJP.

📎 When the TV is on, connect the TV and the RJP within 10 seconds.

- The RJP can be returned to the factory default settings by pressing the A/V and HDMI buttons simultaneously for 10 seconds. All LEDs blink 5 times to acknowledge that this has been finished.
- The RJP will automatically turn off any LEDs after 5 minutes to avoid unnecessary light pollution in the hotel room. The LEDs that were turned off will turn on again if the guest touches any of the buttons and the 5 minute timer will restart. If the guest then touches another source button, the TV will change to the selected source and the corresponding LED will be lit.
- After an RJP Reset or a TV Power OFF/ON, it takes approx. 10 seconds to establish communications between the TV and the RJP.
- The following table shows the approximate time in seconds to switch from the TV to the input source, based on the priority.
 - ✎ Scenario 1: When no inputs are connected.

Source	To Connect
AV	2 Sec
HDMI	3.9 Sec

- ✎ Scenario 2: When two or more inputs are connected and an Input source is disconnected and then reconnected.

Source	Disconnect	To Connect	Total
AV	4.5 Sec	2 Sec	6.5 Sec
HDMI	3.9 Sec	3.9 Sec	7.8 Sec

- ✎ E.g. If the RJP has all its live sources AV, PC and HDMI connected, AV is viewed as the highest priority. If the RJP is in HDMI mode, and a guest removes and reconnects the AV, the minimum time required to switch to the AV is 6.5 seconds.
- To connect audio (Ipod or Mp3), Music mode should be ON and Jack Ident detect should be OFF.
- A/V, PC and HDMI input sources are supported.

Setting the Hotel Option Data

To Enter: Press the MUTE → 1 → 1 → 9 → Select  buttons in order. (From the Hospitality mode, the Standalone mode is set.)

To Exit from this menu : power off and turn on again.

 Depending on Model and Region, some menus do not exist on the TV set.

Hotel TV Function		Description
Category	Item

If it was in Stand-by, it returns to Standby. If it was on, it turns on. • Power ON: When the power returns, the TV turns on. • Standby: When the power returns, the TV enters the Standby mode.

Hotel TV Function		Description
Category	Item	
Channel	Channel Setup	Gives you direct, immediate access to some of the Channel menu functions on the user Channel menu such as Auto Program, Antenna selection, etc.
	Channel Editor	<p>The Channel Editor lets you edit the channels stored in the TV's memory. Using Channel Editor you can:</p> <ul style="list-style-type: none"> • Change the channel numbers and names, manage genre and language groups and delete channels. • Apply the video mute to channels you select. The video mute blanks out the video from a channel and outputs only audio. <p>The Channel Editor also lets you view information about each channel easily, without your having to display each channel directly.</p>
	Channel Bank Editor	<p>Channel Bank Editor edits channels, with 3 different Bank options. Depending on the Bank card, there are specific channels Hotel customers can enjoy.</p> <p> This function only available when set to Hospitality Mode: Standalone, SI Vendor: Smoovie.</p>
	Mixed Channel Map	<p>This Feature enables showing/browsing all antenna type (Air/Cable) channels at the same time.</p> <ul style="list-style-type: none"> • ON: When ON, guests can access the complete Channel Map irrespective of the selected antenna type. The Channel list will also populate Air as well Cable type channels. • OFF: When OFF, guest can access the Channel Map corresponding to the selected antenna type [AIR/CABLE or Satellite] only. The Channel list/Editor will only show the selected antenna type channels.
	Dynamic SI	<ul style="list-style-type: none"> • ON: Check the DTV Programme channel number. (the TV channel editor is inaccessible) • OFF: Do not check the DTV Programme channel number. (the DTV channel editor is accessible, but additional channel Programme number update is not supported)
	Channel Rescan Message	<p>When there is a mismatch between the data in the channel map and the transmitted data, the TV autotunes the channels to restore the data/parameters in the channel map.</p> <ul style="list-style-type: none"> • ON: When Channel Rescan Message is ON, The OSD showing that the channels are being rescanned will be displayed to Hotel Guests. • OFF: A Hotel Admin can turn the Channel Rescan Message OFF, if the rescan message OSD should not to be displayed to Hotel Guests.
	Mychannel	Enable or disable the My Channel feature.
	Subtitle Auto On	<p>This function turns the function On/Off that automatically turns on the subtitles in a specific country.</p> <p>This function is supported for Hotel TVs that are ready to receive DVB broadcasts that is heading to Europe.</p> <p>This function is related to France's subtitle specification. The rest of the countries' subtitles function according to the appropriate country specifications regardless of the Subtitle Auto On function.</p> <ul style="list-style-type: none"> • ON: When the Subtitle Auto On function is ON, it follows France's subtitle specifications. • OFF: When the Subtitle Auto On function is OFF, it does not follow France's subtitle specifications.
	TTX Widescreen Mode	Widen the subtitle section to fit the screen width.
	Broadcasting Sel	<p>This function is enabled only for Philippines Local Set (ED_PHI) to set the cable DTV reception method in Philippines.</p> <ul style="list-style-type: none"> • DVB-C 6MHz: Receives 6 MHz bandwidth broadcast signals for cable DTV (DVB-C). • DVB-C 8MHz: Receives 8 MHz bandwidth broadcast signals for cable DTV (DVB-C). <p>If you change the function value, data in such as the Channel List and the Channel Map may be reset. In this case, you must run Auto Store again.</p>

Category	Item	
Menu OSD	Picture Menu Lock	Enable or disable the Picture Menu.
	Menu Display	<ul style="list-style-type: none"> • ON: The Main Menu is displayed. • OFF: The Main Menu is not displayed.
	Channel Menu Display	<ul style="list-style-type: none"> • OFF: Broadcasting submenu is disable for guest. • ON: Broadcasting subMenu is enable for guest.
	Panel Button Lock	Turning the front panel (local key) operations on/off. <ul style="list-style-type: none"> • Unlock: Unlocks all panel keys. • Lock: Locks all panel keys. • OnlyPower: Locks all panel keys except the Power panel key. • Menu/Source: Locks all panel keys except the Power panel key.
Clock	Clock Type	<ul style="list-style-type: none"> • OFF: No clock option of Factory menu shall work. Only Main menu. • Ext. Clock: When set to Ext. Clock to adjust following options. <ul style="list-style-type: none"> – Time Format: 12 Hour / 24 Hour – Clock Test: Failure / Success – Clock Normal Dim.: 0 ~ 4 – Clock Standby Dim.: 0 ~ 1
	Local Time	Select the way to update the clock data <ul style="list-style-type: none"> • Manual: The clock is set automatically from the DTV channel or manually by the user when the TV is in stand-alone mode. • TTX: Bring up the time information from the TTX stream. • Time Channel: The clock is set from the selected channel. ⚙ Standalone: Manual / TTX / Time Channel ⚙ Interactive: Manual / Auto / TTX / Time Channel
	Timer Type	Enable or disable the alarm function. <ul style="list-style-type: none"> • WakeUp : Enable the alarm function to turn on the device at the specified time. • OnOff : Disable the alarm function and enable on or off timer.
Music Mode	Music Mode AV	Allows music output from an mp3/audio player connected to an AV Input Source on the TV. When on, you can hear sound from the player through the TV whether there is a video signal or not. Also mutes the video so the TV does not display a picture when a guest is playing music. The TV's backlight, however, remains on.
	Music Mode Comp	Allows music output from an mp3/audio player connected to an Component Input Source on the TV. When on, you can hear sound from the player through the TV whether there is a video signal or not. Also mutes the video so the TV does not display a picture when a guest is playing music. The TV's backlight, however, remains on.
	Music Mode Backlight	When set to Off, the TV's backlight is turned off entirely when a guest uses the Music mode. To save energy, set to Off.

Hotel TV Function		Description
Category	Item	
Remote Jack Pack	Priority AV	Lets you set the priority of the 7610 RJP AV jack. You can choose 1, 2, with 1 being the highest and 2 the lowest. The TV automatically displays the source with the higher priority. For example, lets say AV is set to 1 and HDMI is set to 2. If a guest has attached a device to the HDMI jack, and then plugs a device into the AV jack, the TV will automatically switch to the device plugged into the AV jack (the jack with the higher priority). Note that a guest can also switch devices manually by pushing a button on the 7610 RJP.
	Priority HDMI	Lets you set the priority of the 7610 RJP HDMI jack. You can choose 1, 2, with 1 being the highest and 2 the lowest. The TV automatically displays the source with the higher priority. See above for a more detailed explanation.
	HDMI Option	Select which HDMI source of the TV is connected to the RJP jack. (HDMI1/HDMI2/HDMI3)
	HDMI Music Mode	Allows music output from an mp3/audio player connected to an HDMI Input Source. When on, you can hear sound from the player through an HDMI input of the RJP whether there is a video signal or not. (This option is only compatible with the Guest link RJP.)
External Source	USB Pop-up Screen	When USB is connected to the TV : <ul style="list-style-type: none"> • Default: a popup window appears. • Automatic: This enters the USB content menu automatically. • Disable: Neither the popup window nor the menu appears.
	External Source Banner	If set to On, the TV displays the External Source Banner (information) when you change the TV source to another external input, press the Info key, or turn the TV on. <ul style="list-style-type: none"> • ON: The External Source information is displayed on the TV screen. • OFF: The External Source information is not displayed on the TV screen.
	Auto Source	<ul style="list-style-type: none"> • ON: When an external input source is connected to the TV, the TV identifies the input source, and then automatically switches to that input source. • OFF: Auto Source function is Off.
	Anynet+ Return Source	Select the return TV source after stopping an Anynet+(HDMI-CEC) connection. (This fuction is especially useful for the Guestlink RJP.)

	Home Menu Editor	<p>Using this feature you can edit and manage TV feature to be used from Home Menu.</p>
	Home Menu Auto Start	<p>This option allows you to set Home Menu as first screen for user.</p> <ul style="list-style-type: none"> • ON: Home menu is shown as first screen. • OFF: Do not show Home menu as first screen.

Hotel TV Function		Description
Category	Item	
REACH Solution	REACH RF Mode	You can turn on or off the REACH RF Mode. When set to On, the TV can operate with the REACH Server (Modulator) through the RF channel (DTV cable).
	REACH IP Mode	You can turn on or off the REACH IP Mode. When set to On, the TV can operate with the REACH IP Server through the IP network.
	Server URL Setting	You can enter the REACH IP Server's address. (Example: http://192.168.1.2:443)
	REACH Channel	This is a DTV Cable Channel PTC Number for receiving REACH Data when the REACH RF Mode is on. The value must be same as the value set on the REACH Server (Modulator).
	Group ID	You can set the TV's Group ID to manage TVs in groups on the REACH Server (Modulator).
	REACH Update Time	You can set the specific time to receive and update REACH Data from the REACH Server (Modulator). (Operates when the AC power cord is plugged in and the power is off.) <ul style="list-style-type: none"> • OFF: You can turn off the REACH Update Time function. • 1hour: 1 hour after the TV's power is off • 2hour: 2 hours after the TV's power is off • 12:00 am: 12:00 am • 2:00 am: 2:00 am everyday • 12:00 pm: 12:00 pm everyday • 2:00 pm: 2:00 pm everyday
	REACH Update Immediate	When set to On, the TV will receive and update REACH Data from the REACH Server (Modulator) right after the power is off. (Operates when the AC power cord is plugged in and the power is off.)
	REACH Config Version	Displays the TV Configuration Data version received from the REACH Server.
H.Browser Solution	H.Browser Mode	You can turn on or off the H.Browser Mode and run the H.Browser Web App.
	URL Launcher Setting	H.Browser Solution settings menu <ul style="list-style-type: none"> • Install Web App: Enter the H.Browser Server URL where Web App and sssp_config.xml files are located. • Uninstall: You can delete the installed Web App. • Timeout setting: Set the time out period for connecting th the URL. • Developer Mode: If you used Tizen Studio (SDK) for development, you can connect to the Host PC (which SDK is installed) to use the development tool.

Hotel TV Function		Description
Category	Item	
HMS	HMS Mode	You can turn on or off the HMS Mode. When set to On, the TV can operate with the HMS Server through the IP network.
	HMS Server URL Setting	You can enter the HMS Server's address. (Example: http://192.168.1.2:8080)
	HMS Gateway Role	When there is one TV per room, set to 'Master'. When there are more than one TVs per room, set the main TV to 'Master' and the others to 'Slave'.
	HMS HalfTicker Display	Set to On if you want to use the HalfTicker UI. When set to Off, the HalfTicker UI will not be displayed. However, all the hot keys (except for Room Control key) on the HMS remote control will work normally without the HalfTicker UI display.
Virtual Standby	Virtual Standby Mode	When the AC power cord is plugged in and the power is off, this option maintains the TV's important features even after the screen is off. When the TV is in Virtual Standby Mode, it consumes about 9.5 W to 17.4 W.
	Reboot Time	After the TV power is off (in Virtual Standby Mode) if there is no input from the user within the set Reboot Time, the TV will reboot and enter Virtual Standby Mode again.
Room Number	Room Number	You can set the room number of the TV's location.

- 🔗 Refer to the manual of each solution for details about functions and settings of the solutions such as REACH, HMS, and H.Browser.
- 🔗 REACH (Remote Enhanced Active Control for Hospitality) is a professional, interactive remote controller that lets you deliver TV firmware updates, cloning data, channel mapping changes, REACH contents, and TICKER contents through RF/IP DTV to several hundred hospitality TVs simultaneously. The REACH functions are available only in standalone mode. The REACH Server is sold separately. Refer to the REACH server manual enclosed with the REACH server product for more operating information.

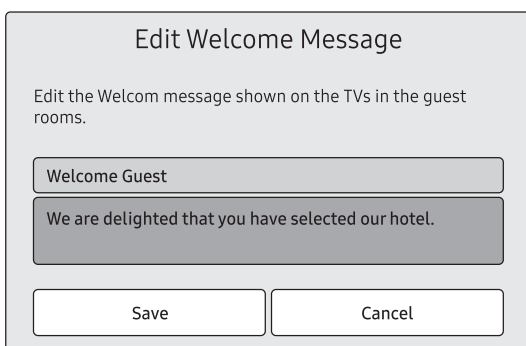

Welcome Message

The welcome message is used to display custom messages on the TV every time TV is turned on by a Guest in Hotel room.

- Welcome message settings are found in the Hotel Option Menu.
- Welcome message should be ON in order to display the message on power-on.
- Hotel option > Logo/Message > Welcome Message

- You can make the Welcome Message and edit it in the Hotel Service menu.
- Welcome message can be edited by using the navigation, colour & enter key on the Remote in the “Edit Welcome Message” OSD.

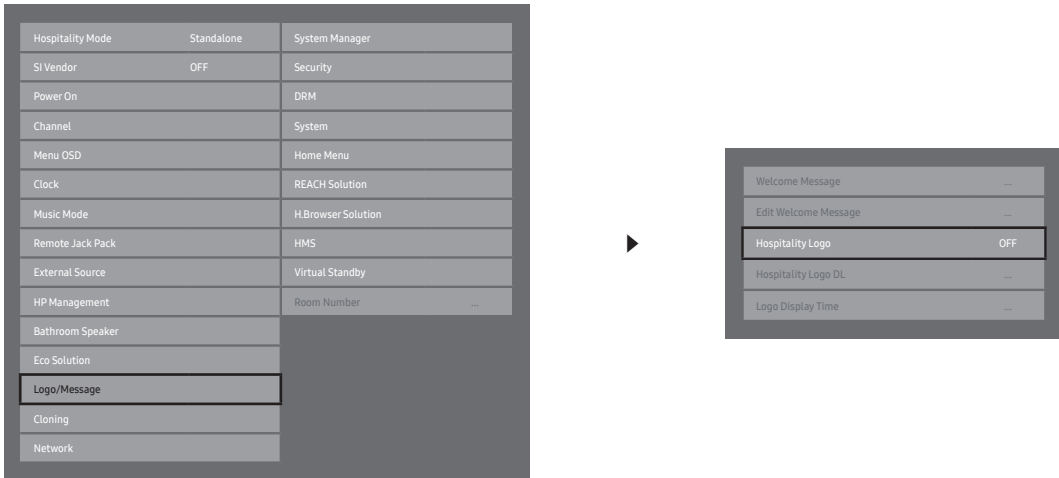

- Use the directional buttons on the remote control to enter the title and message, and select **Save**.

Hotel Logo

The Hospitality Logo function displays the Hotel's picture image when the TV is initially powered on.

- Hospitality Logo settings are the Hospitality mode menus.
- The Logo Download and Logo Display Menu items are enabled when you turn the Hospitality Logo option on.
- If there is a logo image stored in memory and the Hospitality Logo option is on, the Hospitality logo is displayed when the TV is turned on.
- The Hospitality logo is not displayed when the Hospitality option is off, even if its image has been loaded on the TV.

- **Hospitality Logo**
 - This option lets you choose whether the Hospitality Logo image is displayed or not.
 - Initial value is OFF.
 - Can be set to BMP, AVI, or BOTH.
 - When set to BMP, AVI, or BOTH, the Logo Download and Logo Time Display menu items become accessible.
 - The DivX codec is not supported.
- **Hospitality Logo DL**
 - This option lets you download the logo image to the TV's memory from a USB device.
 - A wait message appears while the image is being copied to the TV.
 - A "Completed" message appears when the copy operation finishes successfully.
 - The word "Failed" appears if the copy operation was unsuccessful.
 - No USB appears if no USB device is connected.
 - No File appears if there is no file to copy on the USB device or the file is in the wrong format must be a BMP file. If No File appears and there is a logo file on the USB device, check the file format.
- **Logo File Format**
 - TV Supports all file formats.
 - File name must be "samsnug_image.*" and "samsung_video.*".
 - Max file size: AVI - 50 MB / BMP - 10MB
 - The TV does not change the size or scale of the image.

USB Cloning

USB Cloning is used to download user-configured settings (Picture, Sound, Input, Channel, Setup, and Hotel Setup) from one TV set and upload them to other TV sets.

All the user-defined settings from the TV (Master Set) can be copied to the USB device.

🔧 After cloning, certain features are applied when the TV is turned on again.

- **Clone TV to USB:** This copies stored data from the TV set to the USB device.

1. Insert a USB drive into the USB port on the rear of the TV.
2. Enter the Interactive menu by pressing buttons in order.
 - MUTE → 1 → 1 → 9 → Select 
3. Press the ▲ or ▼ button to select “Clone TV to USB”, then press the Select  button.
4. When the message “Clone TV to USB” is displayed, press the Select  button.
5. You can verify USB cloning behavior.
 - **In Progress:** during copying data to USB.
 - **Completed:** copy was finished successfully.
 - **Failed:** copy was not finished successfully.
 - **No USB:** USB is not connected.

The clone folder will be labeled T-KTMUABCB.

- **Clone USB to TV:** This to downloads the stored data in the USB device to TV set.

1. Insert a USB drive into the USB port on the rear of the TV.
 2. Enter the Interactive menu by pressing buttons in order: MUTE → 1 → 1 → 9 → Select 
 3. Press the ▲ or ▼ button to select “Clone USB to TV”, then press the Select  button.
 4. When the message “Clone USB to TV” is displayed, then press the Select  button.
 5. You can Make sure USB cloning behavior.
 - **In Progress:** copying data to TV.
 - **Completed:** copy finished successfully.
 - **Failed:** copy did not finish successfully.
 - **No USB:** USB is not connected.
 - **No File:** There is no file to copy on the USB device. If you get a No File message, check the folder on your USB device.
The folder name should be T-KTMUABCB.
- 🔧 Activate copying from USB to TV by pressing Select  key for 5 seconds.
- 🔧 The Hotel TV product family does not support the CLONE function between models that supports the satellite / T2 operation and models that do not.

For fast, instant cloning during installation, insert a USB drive with master settings from the first TV and press the Enter key for 5 seconds.

Pre-condition for cloning (check point)

- Cloning should be done between same model (same version).
- Before cloning, all displays should be updated at the latest version (same version).

Setting Auto Initialize

When you clone settings from one TV to another, you clone both the guest side menu and hotel side menu settings: (Picture, Sound, Input, Channel, Setup, and Hotel Setup). This lets you set nearly all of the menu values on your hospitality TVs to the same, standard settings. If you allow guests access to the guest side menus, for example the Picture menu, they can change the settings in those menus so they are no longer standard. If you set the Setting Auto Initialize function to on, the TV automatically restores (initializes) any guest-side menu values to the cloned, standard values when the TV is turned off and then turned on again. Note that Setting Auto Initialize works on cloned guest side menu values only. Settings which have not been cloned are ignored.

The table below lists the settings that are restored to their cloned values when you set the Setting Auto Initialize function to on.

 The menu item does not support depending on the models.

Plug & Play

Hotel Plug & Play automatically performs Hotel mode selection, country setup, clock setup and picture mode setup.

- Hotel Plug & Play is available only one time when power is first turned on.
- This is available after first setting up the TV and transferring Clone TV data to a USB drive.
- To use next TV, you only need to exit Hotel Plug & Play, connect the USB, then Clone the USB to TV.
- Depending on model and region, some menus may not exist.

- **Region Settings OSD**
 - Initially highlighted: **EU**
 - If you press the right directional button after selecting **Change**, you can change the country.
 - If the country is changed, the TV automatically turns off and on.
 - If you select the incorrect country, execute **TV Reset** again after entering the **System** section of the **Hotel Menu**.
 - Before select country, refer to the country list information on the right.
- **Welcome to Samsung TV! OSD**
 - Initially highlighted: **Welcome (English)**
 - If you press the right directional button, the “**TV Installation Type**” OSD appears
- **TV Installation Type OSD**
 - Initially highlighted: **TV Basic Setup**
 - If you press the right directional button, the “**Configure your TV**” OSD appears
- **Configure your TV OSD**
 - Initially highlighted: **Others**
 - Select your **Country** and **Picture Mode**.
 - The country information for the TV settings may differ from the country list information in “**Region Settings OSD**”.
- **Terr./Cable Signal Detected OSD**
 - Then select the connected aerial that you want to use to get channels.
 - After Channel scanning is completed, select **Next**.
 - When the RF cable is not connected, the screen is skipped.
- **Set Clock Mode, DST (Daylight saving time), and Time Zone OSD**
 - Initially highlighted: **Clock Mode : Auto, DST : Off, Time Zone : Eastern**
 - If the TV will be tuned to digital broadcast channels, and these channels transmit date and time information, set the **Clock Mode to Auto**. The TV will set the date and time automatically.
 - If the TV will not be tuned to digital broadcast channels, set the **Clock Mode to Manual**, and then set the date and time on the TV manually.
 - Set **DST On** or **Off** to apply or not apply daylight saving time to the TV.
 - Select your time zone on the map that appears.

Multi Code Remocon

Multi Code Remocon is a special transmitter which is designed to control each TV with one remote.

This is useful where there is more than one TV in a location, such as in a hospital. The set ID number is displayed in the source osd. It is possible to support up to 9 different remote key transmissions for multiple codes.

Each TV has an initial code of "0".

- The ID code can be set and reset in Analogue TV mode or PC mode. (not available in TTX channel or DTV channel.
- ID code can be from 0 to 9.
- Press the MUTE button and the RETURN button simultaneously for more than 7 seconds and then select the number button to set the code.
- Set ID OSD appears.
- The following words appear: "Remote control code is set to X. If you want to change the Remote control code, enter the chosen digit." X is the digit number.
 - 🔑 This OSD displays until Exit is pressed.

Remote control code is set to 0. If you want to change the Remote control code, enter the chosen digit.

- For example, TV and Remote will be set to ID code #1 if the user presses #1.
- The following words appear: "Remote control code is changed to 1" At this point, the TV can be controlled only by the remote with the same ID code as the TV.
- TV, the following words will be displayed. " TV ID x"(x is the TV's ID)
- To reset the ID code, press the MUTE button and the EXIT button simultaneously for more than 7 seconds. When you stop pressing the buttons, the ID code for both the TV and Remote are reset to "0". "Remote control code is set to 0." appears.

Channel Bank Editor (Smovie TV Only)

Channel Bank Editor edits channels, with 3 different Bank Options.
Depending on the Bank card, there are specific channels Hotel customers can enjoy.

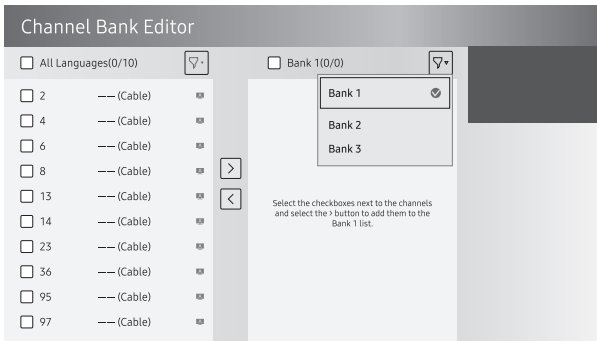

Setting the Channel Bank Editor under Stand-alone Mode

1. Enter the Hotel Standalone menu by "MUTE → 1 → 1 → 9 → Select 
2. Please select SI vendor : "Smovie"
3. find the new menu option, "Channel Bank Editor"
4. Enter the "Channel Bank Editor"

<Depending on model and region, some menu items may not exist>

5. Edit the channel bank like below example.
 - a. BANK1 (Free channel): Select the channel that will be used when remote doesn't have any card.
 - b. BANK2 (Family Card - Green): Select the channel that will be used when remote has a GREEN CARD.
 - c. BANK3 (Adult Card - Red): Select the channel that will be used when remote has a RED CARD.

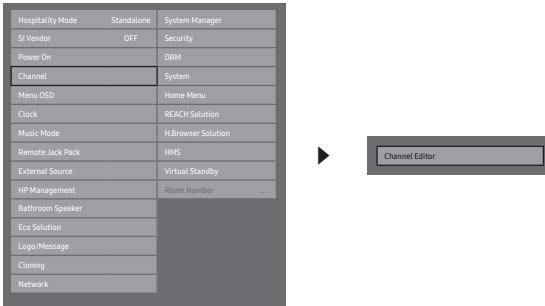

References of using SMOOVIE Remote Controller

1. If you select SMOOVIE as the SI Vendor, you should use the SMOOVIE Remote Controller.
2. With the Numeric keys of the remote controller, users can select only the BANK1 channel.
To change the channel using the Green or Red Card, please use channel up/down keys.
3. For the Channel guide or the Channel list, users can see only BANK1 channel list.

Channel Editor

Channel Editor edits channel number and name.

Use Channel Editor to sort the channels as user-desired channel numbers.

<Depending on model and region, some menu items may not exist>

Simple Steps for Editor under Stand-alone Mode

Step	Broad Outline
1	Operate 'Channel Auto Store' in Hotel Option Menu
2	Enter 'Channel Editor' in Hotel Option Menu
3	Compile a table related to the final channel lists you want to have
4	Rearrange channels with the TOOLS Button based on the table you compiled
5	Press the EXIT or RETURN Button to exit.

<please refer to the following details>

The picture below shows a sample Channel Editor screen.

- **A** Indicates an analog channel.
- Channels without an **A** are digital channels.
 - If Dynamic SI in the Hospitality Option Menu is On, Channel Editor will display no digital channels. You must set Dynamic SI to Off before you can edit digital channels in Channel Editor.

9	Setup Channel Bank Editor	After power off & on, user can use TV		
10	After power off & on, user can use TV			

Channel List

You can view channel information, **All**, **TV**, **Radio**, **Data/Other**, **Analogue** or **Favourites 1 - Favourites 5**.

 When you press the CH.LIST button on the remote control, **Channel List** screen displays immediately.

- **All**: Shows all currently available channels.
 - **TV**: Shows all currently available TV channels.
 - **Radio**: Shows all currently available radio channels.
 - **Data/Other**: Shows all currently available MHP or other channels.
 - **Analogue**: Shows all currently available analogue channels.
 - **Favourites 1 - Favourites 5**: Shows all favourite channels.
-  If you want to view added favourite channels press the CH.LIST button and use the **◀▶ (Ch. Mode)** button to move between **Favourites 1 - Favourites 5**.
-  Using the control buttons with the **Channel List**.
-  (**Tools**): Displays the option menu.
 - **◀▶ (Ch. Mode / Channel)**: Move to the **All**, **TV**, **Radio**, **Data/Other**, **Analogue** or **Favourites 1 - Favourites 5**.
 - When you select the **Programme View** in  (**Tools**) menu, you can move to other channels using **◀▶ (Channel)** button.
 -  (**Watch / Information**): Watches the channel you selected. / Displays details of the selected programme.
 -  (**Page**): Move to the next or previous page.

How to use Schedule Viewing in Channel List

(digital channels only)

When you set the **Schedule Viewing** in **Channel List**, you can only set the programme in **Programme View**.

1. Press the CH.LIST button, then select a desired digital channel.
 2. Press the TOOLS button, and then select **Programme View**. The programme list for that channel appears.
 3. Press the ▲ / ▼ buttons to select the desired programme, then press the Select  (Information) or INFO button.
 4. Select **Schedule Viewing**, then press the Select  button when done.
-  If you want to cancel **Schedule Viewing**, follow steps 1 through 3. Select **Cancel schedule**.

Using Option Menu

Set each channel using the **Channel List** menu options (**Programme View**, **Edit Favourites**, **Lock/Unlock**, **Edit Channel Name**, **Edit Channel Number**, **Delete**, **Information**, **Sort**, **Edit Mode**).

Option menu items may differ depending on the channel status.

1. Select a channel and press the TOOLS button.
2. Select a function and change its settings.
 - **Programme View**: Displays the programme when a digital channel is selected.
 - **Edit Favourites**: Set channels you watch frequently as favourites. Add or delete the selected channel in **Favourites 1 - Favourites 5**.
1. Select the **Edit Favourites**, then press the Select  button.
2. Press the Select  button to select **Favourites 1 - Favourites 5**, then press the OK button.
 -  One favourite channel can be added to several favourites among **Favourites 1 - Favourites 5**.
 - **Lock/Unlock**: Lock a channel so that the channel cannot be selected and viewed.
 -  This function is available only when the **Channel Lock** is set to **On**.
 -  The PIN input screen appears. Enter your 4-digit PIN. Change the PIN using the **Change PIN** option.
 - **Edit Channel Name** (analogue channels only): Assign your own channel name.
 - **Edit Channel Number** (digital channels only): Edit the number by pressing the number buttons.
 -  Some areas may not be able to support **Edit Channel Name** and **Edit Channel Number**.
 - **Delete**: You can delete a channel to display the channels you want.
 - **Information**: Displays details of the selected programme.
 - **Sort**: Changes the list ordered by channel number or channel name.
 - **Edit Mode**: Select desired channels and edit them.

Using Option Menu

Set each channel using the menu options (**Edit Favourites**, **Lock/Unlock**, **Delete**, **Deselect**, **Select All**).

1. Press the **TOOLS** button in **Channel List** screen, then select the **Edit Mode**. A check box appears to the left of the channel.
2. Press the ▲/▼ buttons to select the desired channel, then press the **Select**  button. The (✓) mark indicates the channel you've selected.
 -  You can select more than one channel.
 -  Press the **Select**  again to deselect the channel.
3. Press the **TOOLS** button, then select a function and change its settings.
 - **Edit Favourites**: Set the selected channels you watch frequently as favourites.
 -  The **Edit Favourites** screen has five groups (**Favourites 1**, **Favourites 2**, etc.). You can add a favourite channel to any one of the groups. Press the ▲/▼ buttons to select a group.
 - **Lock/Unlock**: Lock a channel so that the channel cannot be selected and viewed.
 -  This function is available only when the **Channel Lock** is set to **On**.
 -  The PIN input screen appears. Enter your 4-digit PIN. Change the PIN using the **Change PIN** option.
 - **Delete**: You can delete a channel to display the channels you want.
 - **Deselect**: Deselect the selected channels.
 - **Select All**: Select all the channels in the channel list.

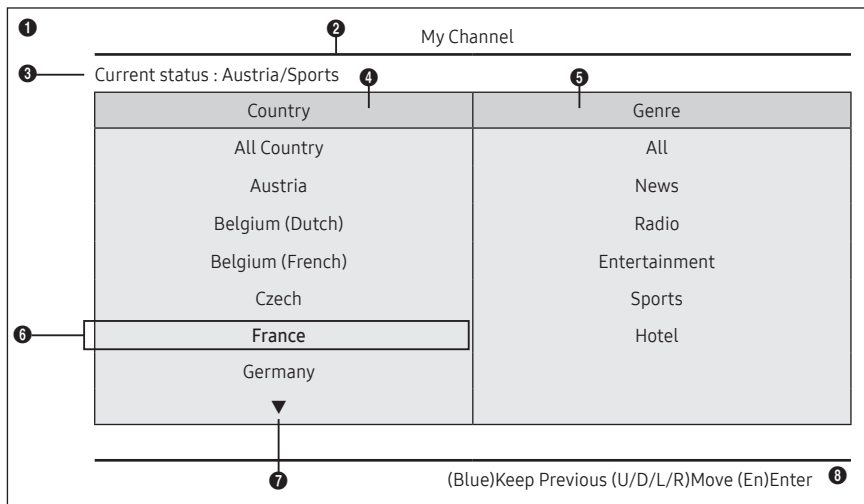

My Channel

Determines the country and genre for the channels provided by the hotel, and if the user selects a country and genre, shows the corresponding channels.

- You must select the country first, or you can not set a genre.
- If you select the genre without adding any channels, the channel list displays all of the available channels.
- My Channel works in Standalone mode only.
- SI Vendor in Standalone mode: This does not work if Smoovie is selected.
- This is in the Hotel Options in Hotel Menu > Service Mode and can be turned on or off.
- The option only works when it is set to on.

Channel Composition [Genre Mode]

Standard	Category	Ch. Mode	Antenna Mode Activation		Description

- The TV channel banner specifications are applied.
- When there is an unsupported item or there is no corresponding information, the item values are not displayed.
- The channel name is represented as the 'external input name'.

Elements

No	Name	Description
1	External Input Name	

The Channel List provides access to functions related to GenreTV.

- Country Mode
- Changes the genre mode.

Mixed Channel Map

Mixed Channel Map is a function to mix Air, Cable and Satellite channels.

[Except for Aus, Singapore, NZ models]

- Mixed Channel Map should be ON in order to mix Air, Cable and Satellite channels.
- Use Channel Editor to sort the channels after turning on 'Mixed Channel Map' in Hotel Option Menu.

Sound Bar

- **Samsung Sound-Bars and Hospitality TV**
 - Use Samsung Sound-Bars and Hospitality TV that support the ARC feature with HDMI. If you connect a compatible Samsung Sound-Bar to a compatible Samsung hospitality TV using a single HDMI cable, guests can listen to the TV's sound through the Sound-Bar.
 - Models supporting the ARC function are listed below:
 - Sound-Bars:
 - HW-K450/K550
 - HW-M550/M450/M4500
- **Setting the Sound-Bars to Hotel Mode**
 1. Set the following Hotel menu options:
 - Hotel option > System > Sound Bar Out = On
 - Hotel option > Power On > Power On Volume > User Defined
 - Hotel option > Power On > Power On Volume > Set greater than 0
 - Hotel option > Power On > Max Volume > Set greater than 0
 2. Connect an HDMI cable from the HDMI OUT jack on the back of Sound-Bar to the HDMI3 port (supporting ARC) on the hospitality TV.
 3. After the Sound-Bar is connected to the hospitality TV, when the TV turns on, the Sound-Bar automatically detects the TV, and then automatically switches to Hotel Mode.

Sound Bar Hotel mode functional characteristics:

- Power On/Off is synchronized with the TV
- HDMI_CEC defaults to On
- Functions through the "HDMI OUT" port only
- Disables the "Input mode" key on the VFD to prevent unexpected audio-source changes.
- Acquires adjustable Power On and Max Volume settings from the TV's Hotel option menu. The Sound-Bar's Power On Volume and Max Volume values, however, are ½ of the Power On Volume and Max Volume settings in the TV's Hotel option menu.
Example: If the TV's Power On Volume=20 and Max Volume=90, then the Sound Bar's Power On Volume=10 and Max Volume=45.

*This function may differ depending on the model.

Security mode

Design Specifications

- This is to restrict some functions such as TTX and external source (HDMI, USB) input in specific facilities such as a correctional facility.
- The Security menu is password-protected. Access to the Security menu is denied without the password.
- Security Setting
 - The Security Setting can be set to ON or OFF.
 - The default is OFF.
 - Security Setting: If set to On, external source (HDMI, USB) input and the TTX function will be disabled.
- Password Setting
 - This allows users to change the password.
 - Users must input the current password, a new password, and confirmation of the new password.
- Password Reset
 - This is to reset the password.
 - The default password is "00000000".
 - Password Reset is visible only in the Factory menu by using the key combination of Info and Factory. It is not visible using the key combination of MUTE → 1 → 1 → 9 → Select .
- Security Setting: If set to On, the SIRCH function is not available.
- Factory Reset will not reset the Security Setting.

Installing the Wall Mount

The wall mount kit (sold separately) allows you to mount the TV on the wall. For detailed information on installing the wall mount, see the instructions provided with the wall mount. Contact a technician for assistance when installing the wall mount bracket. We do not advise you to do it yourself.

Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you select to install the TV on your own.

Wall Mount Kit Specifications (VESA)

The Wall mount kit is not supplied but sold separately.

Install your wall mount on a solid wall, perpendicular to the floor. When attaching to other building materials, please contact your nearest dealer. If installing on a ceiling or slanted wall, it may fall and result in severe personal injury.

NOTE

- Standard dimensions for wall mount kits are shown in the table below.
- When purchasing our wall mount kit, a detailed installation manual and all parts necessary for assembly are provided.
- Do not use screws that do not comply with VESA standard screw specifications.
- Do not use screws longer than the standard dimensions, as they may cause damage to the inside of the TV set.
- For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on their specifications.
- Do not fasten the screws too tightly. This may... damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
- Samsung is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.
- Do not exceed a 15 degrees tilt when mounting this TV.
- When installing a wall mount kit, we recommend you fasten all four VESA screws.
- If you want to install a wall mount kit that attaches to the wall using two top screws only, be sure to use a Samsung wall mount kit that supports this type of installation. (You may not be able to purchase this type of wall mount kit, depending on the geographical region.)

inches	VESA Spec. (A * B)	C (mm)	Standard Screw	Quantity	
50 ~ 65	400 x 400	18 ~ 20	M8	4	

Do not install your Wall Mount Kit while your TV is turned on.
It may result in personal injury due to electric shock.

Securing the TV to the Wall

Caution: Pulling, pushing, or climbing onto the TV may cause the TV to fall. In particular, ensure that your children do not hang over or destabilize the TV; doing so may cause the TV to tip over, resulting in serious injuries or death. Follow all safety precautions provided on the included Safety Flyer. For added stability, install the anti-fall device for safety purposes, as follows.

To avoid the TV from falling

1. Put the screws into the clamps and firmly fasten them onto the wall. Confirm that the screws have been firmly installed onto the wall.
 - 🔧 You may need additional material, such as an anchor, depending on the type of wall.
 - 🔧 Since the necessary clamps, screws, and string are not supplied, please purchase these additionally.
2. Remove the screws from the centre back of the TV, put the screws into the clamps, and then fasten the screws onto the TV again.
 - 🔧 Screws may not be supplied with the product. In this case, please purchase the screws of the following specifications.
3. Connect the clamps fixed onto the TV and the clamps fixed onto the wall with a strong string and then tie the string tightly.
 - 🔧 **NOTE**
 - Install the TV near to the wall so that it does not fall backwards.
 - It is safe to connect the string so that the clamps fixed on the wall are equal to or lower than the clamps fixed on the TV.
 - Untie the string before moving the TV.
4. Verify that all connections are properly secured. Periodically check connections for any sign of fatigue for failure. If you have any doubt about the security of your connections, contact a professional installer.

Anti-theft Kensington Lock

The Kensington Lock is not supplied by Samsung. It is a device used to physically fix the system when using it in a public place. The appearance and locking method may differ from the illustration, depending on the manufacturer. Refer to the manual provided with the Kensington Lock for additional information on proper use.

To lock the product, follow these steps:

Please find the “” icon on the rear of the TV. A Kensington slot is beside the “” icon.

1. Wrap the Kensington lock cable around a large, stationary object such as a desk or chair.
2. Slide the end of the cable with the lock attached through the looped end of the Kensington lock cable.
3. Insert the locking device into the Kensington slot on the product (❶).
4. Lock the lock.
 - 🔧 These are general instructions. For exact instructions, see the User manual supplied with the locking device.
 - 🔧 The locking device has to be purchased separately.
 - 🔧 The location of the Kensington Lock may be different depending on the model.
